

바이오니아의 Multiplex PCR 제품, Hotstart 기술로 정확성과 증폭효율이 우수합니다.

AccuPower® Gold multiplex PCR PreMix
AccuPower® multiplex PCR PreMix

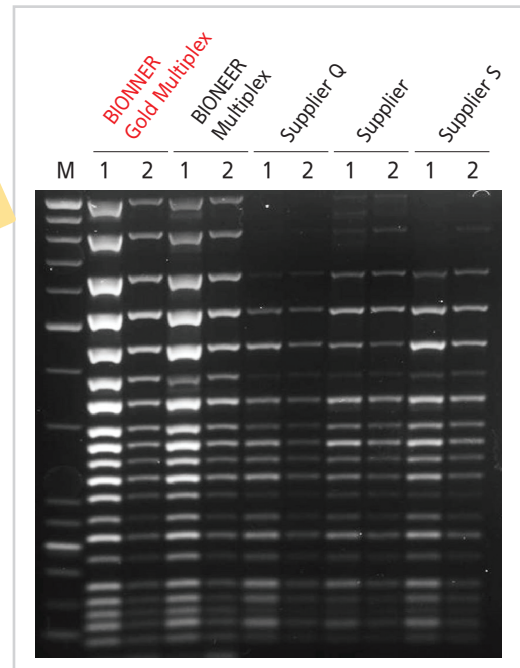

-  Genotyping application (e.g., STR or VNTR analysis)
-  Semi-quantitative gene expression analysis
-  DNA and RNA chip

High specificity of AccuPower® Gold Multiplex PCR PreMix. Each lane from left to right represents the progressive number of primer sets (1~20) added to the AccuPower® Gold Multiplex PCR PreMix.

20-plex !!

20-plex. Comparison of amplification quality between AccuPower® Gold Multiplex PCR PreMix and competitor Multiplex PCR kits.

Lane 1. Human gDNA 100ng
Lane 2. Human gDNA 10ng
M : 25/100bp Mixed DNA Ladder (Bioneer, Cat.No.D-1020)
